### Church resources:

[COP26 Church Service](#); a way for your church to commit Sunday November 7th to climate change - the middle Sunday during the United Nations climate summit. A pre-recorded talk from Pete Greig and Carol Ng'ang'a, prayer from global neighbours, and praise from Celtic Worship.

[Burning Down the House](#); how the church could lose young people over climate inaction. Research from Tearfund and Youthscape in 2021 looking at the voices of young people with reference to climate change.

[Christianity and Climate Change](#). A nine-part film series from internationally renowned Christian climate scientist Katharine Hayhoe. This resource is designed for use in church small groups looking at the issue of climate change and response with a biblical lens.

[Crack the ClimateSilencer](#). A virtual escape room designed for groups of 3-10 exploring the issue of the climate crisis in a fun and engaging way.

[The Climate Emergency Toolkit](#) is equipping and empowering congregations to declare that we are in this crisis and look towards making changes to play their part in a global movement of action. Very much a resource for a fully engaged church group/congregation to take urgent and meaningful action.

[Operation Noah](#) is an organisation who has been leading the way in the UK for helping churches, denominations, and organisations divest from fossil fuels.
